

WHAT MIGHT GOD BE SAYING?

“Someone with an ‘Information’ sash gently held a lost child by the hand. Reassured the child and went to reunite her with her family. Can we be more like this in Canterbury Diocese? So many are lost.”

“What are the barriers we use to keep people out? I wonder if the question is the wrong way around: what are the barriers keeping us from engaging with the community around us?”

“We need more and more to be encircled by the Diocese to model to us and lead us into a deeper way of meeting God.”

“What could we do to change?”

“A renewal call to the marginalised to serve and make known the love of Jesus.”

“What risk is there in removing barriers as we search for renewal?’ For an organisation that has risk-aversion built into its DNA this is a huge challenge for the Church of England.”

A PRAYER FOR THE DIOCESE

Lord,
Help us to be a gentle, open,
listening church
that we may help your
children
to find their way to you -
whether it is for the very first
time,
or after a time of separation,
that all may find true
freedom
in your light and your love.
Amen.
